Dar, Kampala seal pipeline framework agreement

Tanzania and Uganda have signed a framework agreement for implementation of the 1,403 - kilometre pipeline project that will transport crude oil from Hoima in Uganda to the Tanzanian port of Tanga.

Tanzania's Minister for Constitution and Legal Affairs, Prof. Palamagamba Kabudi and Uganda's Minister for Energy, Eng. Irene Muloni, sign the framework agreement

The agreement on the 3.55 billion US dollar project was signed in Kampala recently by Tanzania's Minister for Constitution and Legal Affairs, Prof. Palamagamba Kabudi and Uganda's Minister for Energy, Eng. Irene Muloni.

An official at Uganda's ministry of energy told the media that the agreement covered terms on tax incentives for the project, implementation timelines, the size of the pipeline and local content levels.

The 24-inch diameter pipeline, which will be heated to keep the highly viscous crude oil liquid enough to flow, will begin in landlocked Uganda's western region and terminate at Tanzania's Indian Ocean seaport of Tanga.

A statement issued by Tanzania's State House later said the event was a key milestone for the project, which is expected to create 1,000 jobs and to be completed in 2020.

Wrong signature undermines appeal efforts

Awrong signature on a tendering document has prompted the Public Procurement Appeals Authority (PPAA) to agree with a procuring entity that the bidder was fairly disqualified for failing to meet requirements of the tender, TPJ has learnt.

This came to light recently in the proceedings of the appeal which was lodged by Mntambo Construction Company Ltd against Kilindi District Council regarding tender for periodic maintenance of Kibirashi - Gitu Road.

In essence, the appellant was disputing the reasons advanced by the council in disqualifying his tender,

namely that the person who signed the tender form and the form of litigation history had not been authorized by the power of attorney.

He argued that their tender complied with all the requirements including attachment of the power of attorney which authorized three persons either of who could sign their document and that it had the lowest quoted price.

However, Kilindi District Council countered the appellant's first argument by saying the submitted forms had been signed by an unauthorized person contrary to the requirements of the tender document and that this was a valid basis for disqualifying the tender.

In determining the grounds of the appeal, PPAA observed that while the power of attorney indeed authorized three named persons, the name on the forms had a signature of a different donee, a fact which was admitted by the appellant - who explained away the anomaly by saying the donee signed for the other who had been sick.

PPAA saw that the act of the appellant's representative was not proper and concluded that the decision of the council to disqualify the appellant was fair.

Consequently, the Appeals Authority dismissed the appeal in its entirety for lack of merits.

Wakulima kunufaika na ununuzi wa mbolea kwa pamoja

Na Fatma Salum, Maelezo

Mamlaka ya Udhhibiti wa Mbolea nchini (TFRA) imeanzisha mfumo mpya wa ununuzi wa mbolea kwa pamoja (Bulk Procurement System) kutoka nje ya nchi, utakaosaidia kupunguza bei na hivyo kuhamasisha wakulima katika utumiaji wa mbolea.

Akizungumza na waandishi wa habari jijini Dar es Salaam hivi karibuni, Kaimu Mkurugenzi Mkuu wa Mamlaka hiyo, Bw. Lazaro Kitandu, alisema uamuzi huo umekuja baada ya Serikali kugundua kuwa kwa muda mrefu matumizi ya mbolea hapa nchini si ya kuridhisha kutokana na bei ya bid-

haa hiyo kuwa juu.

“Serikali imeanzisha mfumo huu baada ya kupitia tafiti mbalimbali na kutumia uzoefu wa taasisi zinazofanya ununuzi wa bidhaa kwa pamoja,” alisema Kitandu.

Kitandu alieleza kuwa katika nchi zilizopo kusini mwa Jangwa la Sahara, Tanzania ni mojawapo ya nchi zenye matumizi ya chini ya mbolea kwa kutumia kilo 19 kwa hekta katika ngazi ya wakulima wadogo, ambapo kiasi hicho hakiendani na malengo ya azimio la Maputo la nchi za SADC linalotaka kufikia angalau kilo 50 kwa hekta moja.

Alisema kuwa kwa msimu wa mwaka

2017/18, mfumo huo utaanza na aina mbili tu za mbolea ambazo ni mbolea ya kupandia (DAP) na mbolea ya kukuzia (Urea) na mbolea nyingine zitafuata baadaye kadiri ya mfumo utakavyoonekana unaleta manufaa kwa wakulima.

Akifafanua kuhusu faida za mfumo wa ununuzi wa mbolea kwa pamoja, alisema kuwa utasaidia kuimarisha utaratibu wa usambazaji wa mbolea ambapo wadau wote watakuwa na uhakika wa upatikanaji wa mbolea kwa bei ya ushindani.

Kwa mujibu wa Kitandu, mfumo huo pia utawezesha wafanyabiashara wadogo kukua na kushiriki katika

biashara ya mbolea hivyo kupanua mtandao wa usambazaji.

“Ununuzi wa mbolea kwa pamoja pia utasaidia kudhibiti bei ya mbolea iwapo kutajitokeza ongezeko lisilokuwa na sababu kwa kuwa bei itatangazwa kwa kuzingatia bei halisi, gharama halisi za usafirishaji, tozo mbalimbali na kiwango stahiki cha faida ya mfanya biashara,” alibainisha.

Kupitia mfumo huu, Serikali inatarajia matokeo chanya ikiwa ni pamoja na kupungua kwa bei ya mbolea kwa wakulima hivyo kuongezeka kwa matumizi ya mbolea na uzalishaji wenye tija ili kuchochea maendeleo ya uchumi.

Asilimia ya bajeti ya manunuzi ya mwaka inayopaswa kutengwa na taasisi nunuzi kwa ajili ya makundi maalum

JE WAJUA?

Sheria ya manunuzi ya umma inaitaka Temesa ikague magari ya Serikali kabla na baada ya kuyafanyia “Service”, bila malipo.

Taasisi nunuzi zinakumbushwa kuwasilisha GPN zao za mwaka 2017/18 ndani ya muda na kama sheria inavyoelekeza.
